Evolution, Antichrist and The Murder of Terri Schiavo

by Tom Willis

OK, let's agree up front that evolution did not kill Terri, nor do guns kill people. People use guns to kill people. Some opponents of the Schiavo killing have termed it "A culture of death," but this is essentially a euphemism. In Holland today, old people are afraid to go to the hospital because their doctor has the power to execute them, an ironic twist to the Hippocratic oath. I propose that **the murder of Terri Schiavo was a seminal event in history... especially in "The Decline and Fall of Western, and World Civilization."** How so? this murder was a pure and simple antichrist move, that empowers the state to execute innocent people. To a key extent, evolution helped produce the motive and the political power to kill Terri Schiavo, just as it has in Europe.

A summary. Terri Schiavo was murdered by hired killers who were in business to nurse her back to health (a "hospice"). Rather, they accepted money to withhold food from her until she died. This action was effectively endorsed by her "husband," the prosecuting attorney of the county, the governor of the state, the "welfare agencies" of the state, the state courts, several federal judges, the congress and the president of the United States. Even the local police were called into action, not to prevent harm to any citizens, but to arrest anyone attempting to prevent harm to Terri. Oh, some politicians said they were opposed to it, but all said they could do nothing. Therefore, the killing was effectively approved by every level of government in the United States, the so-called bastion of Christianity in the world.

Other apparent facts include, 1. Her parents and some friends claim she was terrified of her husband and some advised her to not return home the night she mysteriously suffered a near fatal incident. 2. Her husband has now lived with another woman for several years, and sired children by her. If Terri were alive today, she would undoubtedly divorce him. 3. Her parents seemed to be asking only for the right to nurse her back to health, but her husband wanted her dead. 4. Many people strongly suspect that Terri's initial injury was caused by a botched attempt by her husband to murder her. 5. Her husband spent a great deal of the insurance and lawsuit money he obtained on efforts to kill Terri rather than save her. 6. The substance of the legal proceedings left her in the "care" of a "husband" who had deserted her, complete with the power to starve Terri to death. 7. Such power on the part of a husband went virtually unopposed by the so-called Women's Liberation movement.

Murder (*cont'd from right column*)

by definition, are not mature in their understanding of life). Having 100 years of control at the University level, have turned, the last 40 years, with a vengeance, to attacking children with their irrational faith.

Evolutionists lose virtually all public debates, and are really only modestly successful in indoctrinating children. Yet, their hatred of the true God is so intense, and their control of public education so complete, that they make it nearly impossible for sane people to work there. Further, because their faith cannot win in open debate, they have filled key political jobs with their disciples (think "judges" and other political hacks), where the people have little chance to ferret out arrogant incompetence. Thus, evolutionism, and its concomitant hatred of Truth has gained political control far beyond the merits of its case. Disciples of Evolutionism are as irrational as God said in 2Thess 2:10, as scientifically absurd as He said in Romans 1:20, and routinely demonstrate the truth of Proverbs 1:7 and 9:10. Even with virtually total control, their case is so weak and their abilities so impaired as to minimize their effectiveness. But, they are proselytizing very immature individuals, giving them some measure of success. And, like all religious cults, they offer unlimited sex, political power, and even good jobs. Obviously they succeed with some. That success is adequate to destroy civilization!

Is there a solution? If you read the Apocalypse, it might seem unlikely, but I suggest: "Abolish all state owned and operated education as hopelessly entwined with pagan religion, and equally incompetent." They will oppose it in their normal arrogant style, but they are incompetent. Will the end come too soon? Perhaps, but that is no excuse for inaction.

Murder of Terri Schiavo (*cont'd from page 1*)

To explore my theory, let's go back to the very beginning, not to Terri's marriage, but to the important statement by Jesus, "*If the world hates you, you know that it hated Me before it hated you. If you were of the world, the world would love its own. But because you are not of the world, but I have chosen you out of the world, therefore the world hates you* (John 15:18, 19).

My theory can be stated succinctly: "Those endorsing the murder of Terri Schiavo had no valid legal or moral basis for their position. I suggest that this event was a manifestation of John 15:18,19, hatred for Jesus (and thus his followers) was the principal underlying motive for all but, possibly, Michael Schiavo, who hates Jesus, but seems to also have had strong financial incentives and a great fear that Terri might recover enough to identify him as the cause of her near-fatal injury.

Now, how could hatred for Jesus be the motive of all these people? First, many of them do not hate the "name" Jesus because they have made up their own version of Jesus. But, the statement by Jesus remains starkly true, they **hate** the real Jesus. They may tolerate, or even like the imitation Jesus they have invented. But the key observation is that, the supporters of this death had no coherent rationale! Some said the issue was "Right to die." But the evidence she wanted to die came only from the person who wanted to kill her. Some said it was because she was in a "persistent vegetative state." Real cute, her former husband wanted her dead, her parents wanted to care for her. What logic gives him "rights" to kill her when others are willing to care for her, particularly in rather bizarre circumstances including adultery and suspicion of attempted murder?

But, all of this, while germane, is not my primary evidence for my theory. Consider, the primary opponents of the Schiavo killing were Christians (no one can know how sincere, but most were Christians). The advocates of killing her included few, or no, Bible-believing Christians. Part of my theory: they were for the killing, simply because Christians were opposed to it.

Europe has been active in Christian-hating for some time. In the US, it has not been politically correct to carry this hatred too far. But that changed clearly during the last election, and certainly during the Schiavo murder coverage. Why? Theories are supposed to explain phenomena, so my theory should provide a credible explanation for the change.

The phenomena: dramatic change in the view of Christ and Christianity in the US in recent times. The explanation? I suggest that, for over 100 years our State "institutions of higher learning" have failed to educate, but have devoted much of their effort to indoctrinating students in our state religion, a MYOG (Make Up Your Own God) version of Atheism/Pantheism. The primary apologetic framework for this religion is Evolutionism, which is the only "science" with 100% experimental failure. They have failed to make matter (or explain how it could be here forever), obviously failed to make a galaxy and cannot even keep one satellite up for very long. They have failed to make anything as complex as a pocket comb by random processes, failed to make life by any process, failed to make or observe a single new biological structure, and failed to show any hint of evolution while forcing tens of thousands of mutations.

Thus, Evolutionism remains a Category III faith, one held in spite of the evidence of science! Yet it continues to flourish because its adherents, though largely incompetent to hold real jobs, have modest success in browbeating adolescents into submission (largely because they control their grades; and adolescents,

The Evolution of a Creationist

Describes Dr. Jobe Martin's personal journey from an evolution-trained scientist to a Bible-believing creationist. Dr. Martin examines many of the claims and theories of prominent evolutionists, comparing their often incredible, inconsistent, pseudoscientific explanations of origins to the clear and simple description of the Creation as depicted in the Bible.

The Age of the Earth

Using Geologic Formations & Processes - Part 2

By: Tom Willis

Many people are deceived by the notion that advocates of an old earth do so because of "scientific dates" using radioactive elements (discussed in the last two meetings). This is simply not true, old-earthers may pretend to use radiometric dating, but when it conflicts with what they believe, which is often, they always reject it and resort to their core belief: "The Bible cannot be true, if radiometric dating does not give us the results we want, then geology tells the real truth about the age of things. We know how old rocks are by their place in the 'geologic column' and by the fossils we find in them."

The Fossil Record

What Does it Really Tell Us?

By: Bob Farwell

Since evolutionism has no success in the laboratory or in the field, they have always depended heavily on stories about the meaning of fossils as their primary apologetic argument. For nearly 200 years, they have told stories, and claimed their stories were "science," but do they really stand up under scrutiny? Your first clue should be that "science" does not consist of stories about what may have happened in the distant past. Science is supposedly about postulates describing the current operating characteristics of the Cosmos, each of which must experience 100% experimental success. Evolution experiences 100% experimental failure.
